Scrum Alliance® CAL 1 CERTIFIED

CET COACHING EXPERT TEAM

Certifief Agile Leader

- **Official Scrum Alliance certification**
- **Two-year paid membership with access to exclusive materials**
- **16 SEU points for education and automatic renewal of all Scrum Alliance licenses**

For:
> Leaders and Managers
> Scrum Masters
> Coaches and consultants
> Senior directors
> C-suite executives
> Anyone who leads or wants to lead people

The Scrum Alliance launched this redisigned course at the beginning of 2024 in order to respond to the growing need for a fast reaction to constant changes.
A CAL 1 certification is a deep dive that will challenge you to expand your capabilities and mindset as part of a leadership toolkit you can leverage in your current role.

This training is for anyone who wants to impact an organization's journey to resiliency and success. By leading with agile skills like collaboration, team empowerment, adaptability, and continuous improvement, you'll be prepared to mentor teams to create the best products, solve enterprise-level problems, and produce outcomes that directly affect your organization's ability to thrive.
Once you complete CAL 1, you'll earn a certification and badge to showcase your validated competency and commitment to agile leadership.

CET COACHING EXPERT TEAM

Certifief Agile Leader

About training

In an uncertain business environment, leaders should be equipped with a new set of skills to reach their goals. That helps leaders and organizations to drive better ROI, mitigate risk, and keep a leading position in the market.

The CAL 1 is a Scrum Alliance's certified course for anyone who wants to impact and improve an organization's resiliency and success.

Topics:

- What is the "agile leadership"
- The key differences between traditional and agile leadership
- How to grow competencies in others
- How to grow competencies in yourself as a leader
- Leading Agile Teams
- Goal setting and Coaching
- Agile organization's culture
- Agile organization's structure, processes & policies

Certifief Agile Leader

Using Agile ledership skills you can achieve:

- Faster building of high-performing teams
- Strategic planning for personal and team's member growth
- Flexibility of teams in response to constant change
- Understanding the dynamic environment in which teams/companies operate
- Establishing an environment where every voice is heard and respected

In Certified Agile Leader training you will learn:

- What makes an agile leader agile
- Why agile leadership matters and when it matters most
- How to lead change management and transformation
- Agile principles applied to any business context
- Frameworks and tools for growing as a leader
- Leadership models to grow as a leader
- Tools for fostering growth in your team members
- How to build high-performing, cross-functional teams
- How to increase the effectiveness and agility of teams and organizations
- Why and how organizational culture impacts team effectiveness

Certifief Agile Leader

This course enables you to:

- Build the leadership skills required for today's dynamic and ever-changing organizations
- Unlock leadership tools to drive strategic vision in modern organizations
- Lead fearlessly to thrive in a landscape defined by rapid change
- Become a modern leader who can navigate change and uncertainty while delivering lasting success
- Drive game-changing results and deliver better products as an agile leader
